This catalogue includes information on all supplies coordinated for distribution through the Ontario Harm Reduction Distribution Program (OHRDP) to Needle Syringe Programs (NSPs) in Ontario. It includes images of the products, their packaging, as well as detailed specifications. This information serves to assist with inventory management practices, including the development of resources for satellite sites and other access points. The various container sizes and their official names are included to establish consistency in future communications and data recording. On occasion, OHRDP may need to send a product that is different than what is displayed here. In such an event, please be assured of the quality of the substituted product. **This product catalogue is not an order form; the OHRDP order form is available through the staff portal on our website: ohrdp.ca.**

 Size listed on OHRDP order form – Larger sizes are delivered when practical.
