# How to Purchase an MHA-PDS Compliant Client Management System (CMS)

A webinar for organizations seeking to choose an MHA-PDS compliant CMS

**September 11, 2024** 

## AMHO SUPPORT FOR ORGANIZATIONS ONBOARDING TO THE MHA-PDS

AMHO is one of three Coordinating Leads, alongside CMHA-Ontario and the Mental Health Partners

We are working with our respective members as well as with other community-based MHA providers to inform them and answer questions about the MHA-PDS onboarding process, timelines and requirements; and connect them to the CoE when appropriate.

AMHO has sourced the services of the consulting firm, Asurtec, to provide 1-on-1 support and tools to our members in the PDS onboarding process, including migration from non-compliant systems, decision support, technical support, and assistance with required paperwork and documentation.

#### **OBJECTIVE**

To help you select and purchase a Client Management System (CMS) that is compliant with the Mental Health and Addictions Provincial Data Set (MHA-PDS) and also meets your organization's needs.

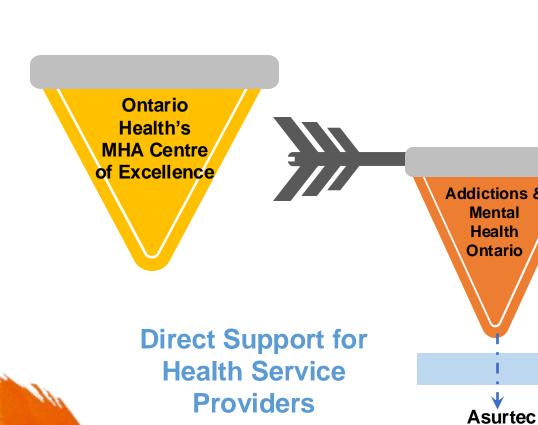

#### By the end of the webinar, you will:

- 1. Be familiar with a process and tools that you can use to select a PDS-compliant system; one that considers your organization's needs across several areas.
- 2. Understand the supports available through AMHO to help with your MHA-PDS onboarding.

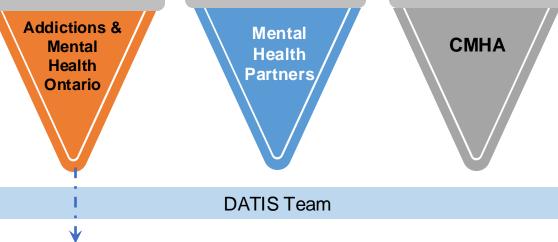

#### **PARTNERS**

#### **Coordinating Leads**

- 1. Project Management
- 2. Vendor Liaison
- 3. Data and Workflow System Alignment
- 4. Training and Change Management

P

## WHAT IS THE MHA PROVINCIAL DATA SET?

Ontario Health's Mental Health and Addictions (MHA) Centre of Excellence (CoE) has introduced a standardized provincial data set called the Mental Health and Addictions Provincial Data Set (MHA-PDS).

The MHA-PDS is a minimum set of routinely collected, client-level, standardized data elements that support direct service delivery and enable consistent and comparable reporting of service utilization, client outcomes & client characteristics across the Ontario Mental Health and Addictions sector.

To input data and report on the MHA-PDS, organizations must use one of four compatible Client Management Systems (CMS'):

MAY HAVE
ABOUT PDS

FINALLY, WE ARE GOING DIGITAL! HOW WILL WE MOVE ALL OUR PAPER FILES INTO A SOFTWARE SOLUTION?

THIS WILL BE A CHANCE TO INTEGRATE OUR DATA SYSTEMS FOR MORE SOPHISTICATED REPORTING

THIS SORT OF CHANGE HASN'T ALWAYS BEEN SMOOTH IN THE PAST IT WILL BE
GREAT TO GET
A NEW SYSTEM
THROUGH A
SUPPORTED
PROCESS

HOW CAN WE MAKE
THIS ALIGN WITH
OUR NON-MHA
ACTIVITIES AND
FUNDERS?

#### **BENEFITS OF THIS PROCUREMENT PROCESS**

- Places organizations in the driver's seat.
- Helps you consider your organization's needs early, ahead of rushing to get quotes and book demos.
- Tools provide vendors with information they need to give you a realistic quote.
- Enables apples to apples comparison across systems.
- Offers fair and necessary competition between the vendors because all vendors receive the same information at the same time.
- An objective process that offers transparency, clarity and rigor to the decision.

#### PREPARING FOR PROCUREMENT

A. Conduct an Organizational-Assessment

B. Develop the Request for Quotation (RFQ)

C. Issue the RFQ

1.What policies or directives should be followed?

2.Are there financial constraints?

3. Are there essential regulatory and reporting requirements?

4. What are the available internal resources?

5. Who will be impacted and how?

6. What must the new system do?

1.Summarize requirements using the tools in the Procurement Toolkit

1.Supply vendors with the completed

Procurement Toolkit

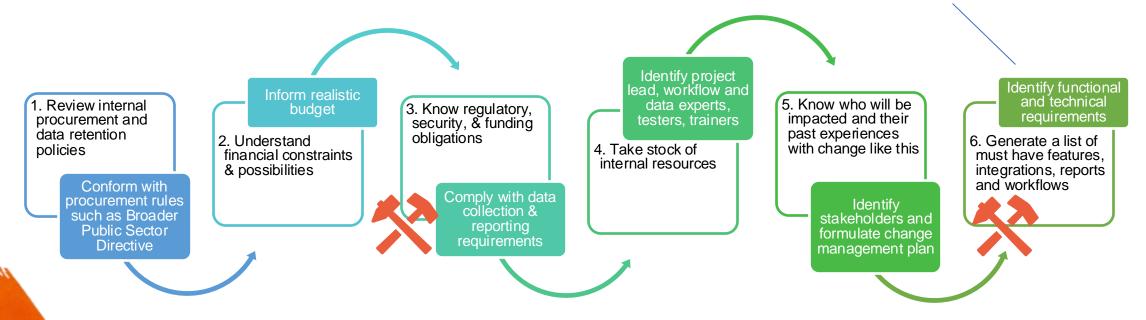

2.Ask the vendors to complete the Vendor Submission Form by a defined date

Recommend: Forming a Vendor Evaluation Committee to support the information gathering and subsequent steps of procurement

### A. Conduct Organizational Assessment

- Functional requirements refer to the features you need the system to do in day-to-day work.
- Technical requirements include things that specify needs for security, data storage, data migration, and ongoing vendor support.

With a well-selected Vendor Evaluation Committee this may take approximately 2-3 focussed meetings

#### **B.** Develop RFQ Using Tools in the Toolkit

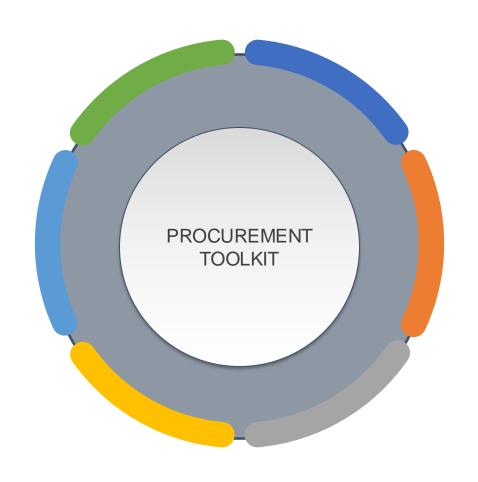

Questions about organization's budget, years of operation, programs and services that will use the CMS.

## 2. SCOPE OF SERVICES

Questions about the system currently in use, or where information is stored, number of active clients, number of staff who will use the system.

## 3. CMS REQUIREMENTS

A priority ranking of a list of functional and technical requirements. Organizations will dentify features they must have, would be e to have or do not need.

## 4. REPORTING REQUIREMENTS

Organizations will identify reports they use for funders, or operationally. As well as what data is pulled, from where, how often and for whom.

## 5. VENDOR EVALUATION MATRIX

Identify criteria the Vendor Evaluation Committee will use to assess vendors and systems with an assigned weighting. Vendors are scored against these criteria.

## 6. VENDOR SUBMISSION FORM

Vendors will receive tools 1-5 and provide organization with a quotation, inclusive of implementation plan and other important information to help make an informed decision.

## **Tools in the Procurement Toolkit**

Question	Response
What programs and services will be in scope for the new CMS?      Describe the age group or	Tool 1: Organizational Profile
population you serve.  3. What is your organization's operating budget?	
4 Do you offer housing or	

Tool #3 - CM	IS Func	tional & Technical Requirements	3

#### Vendor Information

Please fill out the following form, naming one person to be the Proponent's contact for the RFP process and for any clarifications or communication that might be necessary.

#### **Table 1: Proponent Details**

Full Legal Name of Proponent:	
Any Other Relevant Name under which Proponent Carries on Business:	
Street Addres Tool 6: Vendor	Submission Form
City, Province	
Postal Code:	
Phone Number:	

## C. Issue the RFQ

- 1. Share completed Toolkit (Tools 1-5) with the vendors.
- 2. Ask vendors to complete the Vendor Submission Form (Tool 6) by the date you decided in your plan.

Someone from the Asurtec team will contact you to see if you need support using the tools and to help in receiving a quote from vendors

#### **PROCUREMENT PROCESS**

EC = Evaluation Committee

**General Pricing** based on Scope of Services

Consider shared tenant options

More specific pricing based on deeper discussions with vendor

Issue RFQ

- Issue RFQ
- Vendor Responses

- EC reviews and scores completed Vendor Submission Form
- Individual EC member scores are aggregated & summarized to produce vendor ranking
- EC discusses and confirms ongoing costs are reasonable and identifies vendors moving to Stage II
- Top scoring vendors invited to Presentation and Demonstration

Stage I

- EC (and others) invited to attend, opportunity to ask questions and assess if the software will meet needs. May involve case scenarios\*
- •EC scores each presentation and demonstration using scenarios
- •Scores are aggregated and EC discusses and confirms vendor that will proceed to Negotiation

Stage II

- Selected vendor notified of Organization's intent to proceed to negotiation and pricing details are confirmed (customizations, integrations, training plan)
- •2nd place vendor notified of intent to proceed with other negotiation, but should negotiations fail will be notified

Vendor **Notification** 

Contract

- •EC prepares to enter contract negotiations (contract review, questions, pricing, implementation, resource review)
- Negotiate Negotiation round(s) with vendor
  - Finalized contract for approval internally
  - Finalized contracted signed by all parties

Weeks 1-2

Week 3

Weeks 4-5

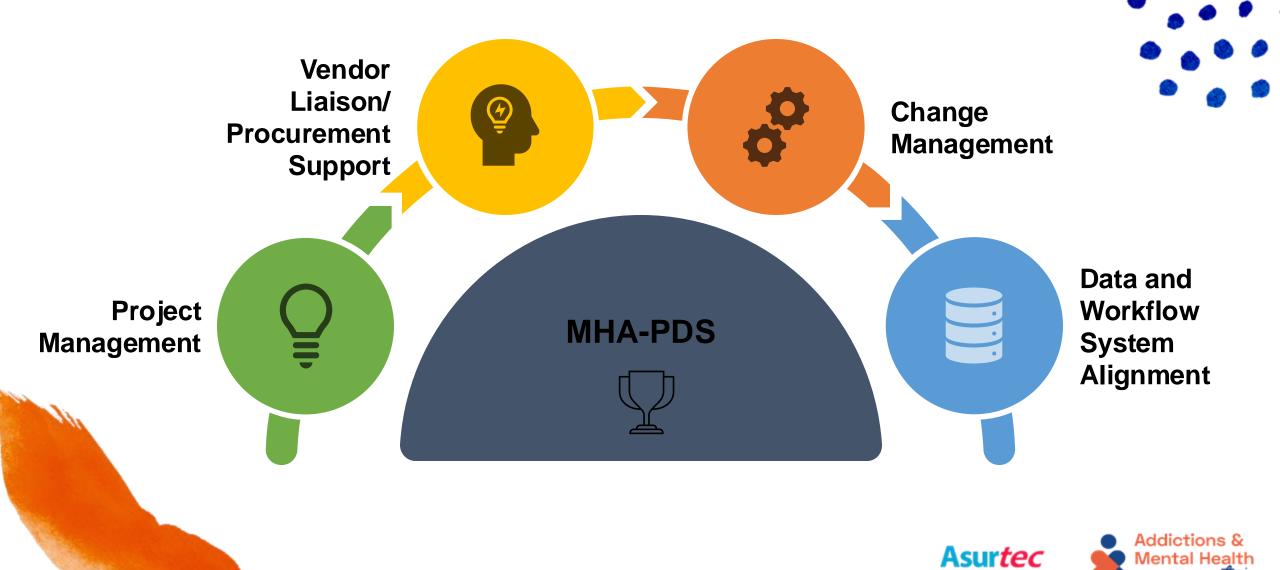

Week 6

**Varies** 

#### **ASURTEC SERVICE OFFERINGS**

### **NEXT STEPS**

- 1. Review the presentation and Procurement Toolkit
- 2. Form the Vendor Evaluation Committee
- 3. Complete the tools
- 4. Submit tools to vendors

Reach out to Asurtec at AMHO PDS@asurtec.com for support

Someone from the Asurtec team will contact you to see if you need support using the tools and to help in receiving a quote from vendors
